RESULT LIST

A table will be displayed showing all matching results from January 2014 to date. The last 4 columns are:

AV TRICKS – The average number of tricks made by other declarers in the same denomination. If no other declarer played in that denomination, the average shown is that made by the selected declarer.

DD TRICKS – The number of tricks available according to double dummy analysis.

PLAYER % - The percentage score obtained by the selected player.

SHOW – Click a result and then click 'SHOW HAND' (bottom left of screen) to display the selected hand together will all results obtained at the table.
